

Introduction

The Extension Master Gardener VolunteerSM
Association of Harnett County compiled this
Horticulture Resource Guide under the guidance of
NC Cooperative Extension Horticulture Agent, Matt
Jones

The mission of Harnett County Cooperative Extension, in cooperation with NC State University and North Carolina A&T University, is to help individuals, families and communities to put research-based knowledge to work to improve their lives.

We hope you find this resource guide informative to your horticulture needs.

For assistance please contact us at:

Matt Jones Horticulture Extension Agent 126 Alexander Dr. Lillington, NC 27546 910-893-7530 mjones@harnett.org

The Extension Master GardenerSM program allows NC Cooperative Extension office to extend education to an ever-increasing gardening audience. It also provides a highly visible way to meet the public demand for information and to develop a strong clientele support group.

Master Gardener VolunteersSM are members of the local community who take an active interest in their lawns, trees, shrubs and gardens. What really sets Master Gardener Volunteers apart from other home gardeners is their special training in horticulture and their willingness to educate others. In exchange for their training, Master Gardener Volunteers devote time as volunteers. Working through a Cooperative Extension office, they provide horticulture-related, research-based information and resources to the public. Call us at 910-893-7530 Monday thru Friday from 9:00am to 3:00pm. If we are out, leave a message or email us at mastergardener@harnett.org and we will respond.

Mission Statement

The Extension Master Gardener Volunteers of Harnett County (EMGVs) are trained in home gardening by North Carolina Cooperative Extension. EMGVs share what they learn with residents of all ages through activities that promote healthy landscapes, productive gardens and a safe environment.

Who Volunteers?

Individuals with an interest in both gardening and volunteer service are potential candidates for the program. No previous formal training is necessary. Volunteer training is held during the day. Most volunteer opportunities are available during the day or on weekends.

Training

Usually held once a year in Lillington. Initial training consists of 40 hours of mostly classroom training. Topics covered include lawns, vegetables, pesticides, wildlife-friendly plants, pruning, design and much more. Participants in the program must complete the training class and volunteer a minimum of 40 hours the first year through the Harnett County Cooperative Extension Center.

Volunteering

First year volunteers perform one hour of volunteer time for each hour of training received. During the second year, and each year thereafter, volunteers donate 20 hours per year in addition to receiving valuable advanced training. Volunteer activities include answering gardening questions from the public, performing community outreach, organizing resources, assisting with demonstration gardens and much more.

For more information please contact:

Matt Jones, Horticulture Extension Agent 910-893-7530 126 Alexander Dr. Lillington, NC 27546 mjones@harnett.org

McGill Premium Compost Products

The McGill Premium Compost advantage

Our climate-controlled facilities scientifically enhance the composting process to deliver:

V	Higher yields with fewer chemicals	Healthier soil structure and increased organic matter essential to key soil processes and soil biology
V	More water where you need it	Improve growing conditions by boosting the water-holding capacity of your "lighter" sandy soils keeping more moisture at the root zone
V	Improved drainage	Reduce the impact of over-watering or water-logging after heavy rain through increased pore space allowing water to percolate quickly in "heavier" clay soils
V	Slow release	Get more nutrients to the root zone and hold them there for slow release uptake by increasing your soil's Cation Exchange Capacity
V	Reliable performance	Our premium compost is tested to meet STA certification with a report explaining how each parameter impacts compost quality and intended use

Our Agriculture & Landscape customers use our **Premium Compost** for mainly one reason — IT WORKS!

A healthy landscape doesn't happen by itself. It needs specialized and timely care.

We are a family-owned and operated company serving Harnett and surrounding counties providing year-round personalized service to ensure your lawn and trees are protected against pests and looking their best in every season.

YEAR-ROUND SERVICES

Treat residential yards and trees up to 50 acres
Apply seasonal pesticide (herbicides and insecticides) controls
Bio-Growth stimulant and granular fertilizer spreading
Apply timely fertilizer and weed pre-emergent in lawns and shrub beds
Deep root feedings for trees and plants needing extra nourishment
Dormant oil sprays for shade, ornamental and fruit trees
Individual customized maintenance programs
Fire ant control

Pond Cleanup and Management Program

Best Management Practices for your landscape

Grass Seed

Vegetable & Flower Seeds

Ask a Master Gardener VolunteerSM

Got Fire Ants?
Lawn not growing well?
Vegetable garden needs help?
New to the area and need some advice?

910-893-7530

Master Gardener Volunteers work with Cooperative Extension under the guidance and support of the Horticulture Extension Agent

Call your NC Extension Master Gardener VolunteersSM for information (or questions) regarding lawns, vegetables, trees, ornamentals, fruits, plant problems and pests, soils, diseases, and many other horticulture-related issues.

If you are new to the area, Master Gardener Volunteers can offer answers to many of the questions you may have about gardening in North Carolina.

NC Dept. of Agriculture offers soil testing. Ask a Master Gardener for a soil test kit. We can also help you understand the test results and recommendations.

Love to garden? Ask about becoming a Master Gardener yourself.
